

Entry-Level Cybersecurity Analyst | Blue Team | SOC Analyst

SUMMARY

Motivated and detail-oriented entry-level Cybersecurity professional with strong foundational knowledge in threat detection, incident response, and security operations. Skilled in SIEM tools such as Splunk and IBM QRadar for log analysis, event correlation, and security monitoring. Experienced in threat hunting and IOC identification, with solid understanding of networking concepts, cybersecurity fundamentals, and the MITRE ATT&CK framework. Committed to continuous learning and contributing effectively to SOC operations.

WORK EXPERIENCE

Cybersecurity Intern | Ernst & Young | Jan 2025 – June 2025 | Chennai

- Assisted in monitoring and analyzing security events using SIEM tools like Splunk and IBM QRadar.
- Participated in threat hunting activities and supported the identification of Indicators of Compromise (IOCs).
- Conducted basic log analysis and contributed to incident detection and response procedures.
- Gained exposure to vulnerability assessment tools and documented findings for internal reports.
- Collaborated with senior analysts to understand security frameworks such as MITRE ATT&CK and Cyber Kill Chain.
- Supported the development of standard operating procedures (SOPs) for alert triage and threat handling.

SKILLS

- | | |
|--|------------------------------------|
| ❖ Cybersecurity Frameworks: MITRE ATT&CK, Cyber Kill Chain | ❖ Threat Hunting & IOC Analysis |
| ❖ Vulnerability Scanning & Assessment | ❖ SIEM Tools: Splunk, IBM QRadar |
| ❖ Basic Python Scripting | ❖ Log Analysis & Event Correlation |
| ❖ Malware Behavior Understanding | ❖ Incident Detection & Response |
| ❖ Email & Web Threat Analysis (Phishing, Spoofing) | ❖ Windows & Linux (Basic CLI) |

EDUCATION

B.Tech – Cyber Forensics and Information Security
Dr. M.G.R Educational & Research Institute, Chennai

CGPA: 8.4
(2021–2025)

PROJECTS

Crypto Wallet Checker *Personal Project | Tools: Python, OSINT APIs*

- Developed a Python tool to validate and analyze cryptocurrency wallet addresses.
- Implemented checks for suspicious activity, anomalies, and unusual transaction patterns.
- Integrated OSINT and public threat intelligence APIs to identify malicious indicators.
- Followed secure coding practices with strong input validation and error handling.

CERTIFICATIONS/LICENSES

Certified SOC Analyst(In process)
